Dear Barbara & Steve.

Having had the dental treatment in Krakow Poland over a 2 year period consisting of implants and bridging denture to upper jaw performed by dental surgeon Dr. Christopher and his team. they are excellent I am very pleased with the result. I had to have bone restoration at the beginning having very thin bone caused by having no teeth over the years. The dental treatment in Krakow is excellent and the team make you feel at home and not an ordeal. cannot fault the treatment and at less cost than in U.K. also Barbara & Steve are very nice people and also Dominika in Poland.

Thanking all concerned at Barbara Thurgood & Co

Yours Sincerely
Frank Abbiss
