Dear Barbara & Steve,

It is now 12 days since I returned from my third and final visit to Krakow. Three days later I departed for an eight day stay with friends in Southern Germany.

Now I am home I thought you should know I am absolutely delighted with the Dental treatment I received from Dr Christopher Kachat and his team and indeed the whole package you offered me.

It has been a long haul; however I was informed at the initial consultation in Broydon owing to my gums requiring the necessary regeneration for the implants to be fitted the procedure would take 12 months and would involve three visits to Poland.

At the age of 81 I did have slight doubts. Should I proceed or not? I was most impressed by Dr. Christopher's confidence that he could achieve exactly my requirements. I decided to go for it.

As stated above I am so pleased and delighted with the end results.

Would I do it all again? Yes I would without a doubt. Krakow is indeed a beautiful city the Grodek Hotel a delightful place to stay with superb meals and a wonderful helpful staff and the Dental treatment was a pain free experience.

Many Thanks.

Best Wishes.

Yours Sincerely

John McNamara.
